Sir:

Listed on accompanying Forms PTO/SB/08A and PTO/SB/08B are documents that may be considered material to the examination of this application, in compliance with the duty of disclosure requirements of 37 C.F.R. §§ 1.56, 1.97 and 1.98. Copies of documents **FP1-FP8** and **NPL1-NPL4** are submitted. However, in accordance with 37 C.F.R. § 1.98(a)(2), a copy of the U.S. patent, document **US1**, cited on the attached Form PTO/SB/08A is not submitted.

Where the publication date of a listed document does not provide a month of publication, the year of publication of the listed document is sufficiently earlier than the effective U.S. filing date and any foreign priority date so that the month of publication is not in issue. Applicants have listed publication dates on the attached IDS Forms based on information presently available to the undersigned. However, the listed publication dates should not be construed as an admission that the information was actually published on the date indicated.

A concise explanation of the relevance of the non-English language documents **FP1-FP3** appears below in accordance with 37 C.F.R. § 1.98(a)(3). Document **FP1** was cited in the International Search Report (submitted herein as document **NPL4**) by a foreign patent office in the PCT application, and documents **FP2** and **FP3** were cited in the European Search Report (submitted herein as document **NPL2**) by a foreign patent office in a counterpart foreign application. Submission of English language versions of the search reports that indicate the degree of relevance found by the foreign office is provided in satisfaction of the requirement for a concise explanation of relevance. 1138 OG 37, 38.

Applicants reserve the right to establish the patentability of the claimed invention over any of the information provided herewith, and/or to prove that this information may not be prior art, and/or to prove that this information may not be enabling for the teachings purportedly offered.

This statement should not be construed as a representation that a search has been made, or that information more material to the examination of the present patent application does not exist. The Examiner is specifically requested not to rely solely on the material submitted herewith.

This Information Disclosure Statement is being filed within three months of the date of entry of the national stage as set forth in 37 C.F.R. § 1.491 in an international application. No statement or fee is required.

Bastiaans *et al.*

Respectfully submitted,
